books2ebooks – Millions of books just a mouse click away!

European libraries are hosting millions of books from the 15th to the 20th century. All these books have now become available as eBooks – just a mouse click away. Search the online catalogue of a library from the eBooks on Demand (EOD) network and order the book as an eBook from all over the world – 24 hours a day, 7 days a week. The book will be digitised and made accessible to you as an eBook. Pay online with a credit card of your choice and build up your personal digital library!

What is an EOD eBook?

An EOD eBook is a digitised book delivered in the form of a PDF file. In the advanced version, the file contains the image of the scanned original book as well as the automatically recognised full text. Of course marks, notations and other notes in the margins present in the original volume will also appear in this file.

How to order an EOD eBook?

Wherever you see this button, you can order eBooks directly from the online catalogue of a library. Just search the catalogue and select the book you need.

A user friendly interface will guide you through the ordering process. You will receive a confirmation e-mail and you will be able to track your order at your personal tracing site.

How to buy an EOD eBook?

Once the book has been digitised and is ready for downloading you will have several payment options. The most convenient option is to use your credit card and pay via a secure transaction mode. After your payment has been received, you will be able to download the eBook.
