Professor Hans Thirring,  
Strudelhofgasse 13,  
Vienna 9,  
Austria.

Dear Professor Thirring,

Although I was not able to be present at the World Power Conference in Vienna last year, I have heard from the Secretary, Mr. Gray, that you gave some information about the undeveloped power potentialities in Tibet. I cannot find a paper by you on this subject and think you might have made a statement on this subject in the discussions.

I wonder if you would be so very kind as to send me a copy of your statement or, if this is not possible, a reference to some source from which I might obtain information on the question.

Yours truly,
