

XVI O-8

16th Pugwash Conference on Science and World Affairs

Sopot, 11-16 September 1966

OPENING CEREMONY

Letter from the Minister of Higher Education,

Professor H. Jablonski

The state of my health does not permit me to participate in the debates of the 16th Pugwash Conference. I therefore wish to send you my best wishes for most fruitful debates of the Conference, the great importance of which I fully appreciate. A rapprochement and mutual understanding among scientists of all countries, their collaboration in the fight for peace and possibly best conditions of co-operation for further advancement of science - constitute one of the most exquisite and honourable activities leading to the welfare of humanity. This is, therefore, why I desire that my voice were not missing in your important debates.
