Dr. Hans Thirring, Professor
c/o World Symposium on Applied Solar Energy
Phoenix, Arizona

Dear Professor Thirring,

upon reviewing the program of the Conference and Symposium, I found altogether too late that you were in this country. I do hope that you will come to or through Chicago, and perhaps can arrange to spend an evening at our house.

I have been in Europe for a few weeks last January, mainly in the U.K., Sweden and Switzerland in connection with European installations at extra high voltages, and I did not get to Austria and to see you - possibly in Kitzbuehel. Please send me a note as to what your plans are and when you may be nearby.

Though I am essentially a professor of electric power systems engineering, I do not always stay in Chicago, and am away from home part of one week about once a month. In most cases I can arrange my program and stay here if arrangements can be made early enough.

I am very much looking forward to seeing you in the not too distant future.

Very sincerely yours,

Eric T. B. Gross
