

Kitzbühel, 27th December 1955.

Dear Professor Trimmer:

Please do not consider me ungrateful because such a long time elapsed before I am writing you to thank you most heartily for your great kindness during my stay at Knoxville on Nov. 15th and 16th. My lecture trip through the States was prolonged until December, and when after a sea voyage and a travel through France and Switzerland I arrived at home I found my desk buried under a kind of avalanche of letters and printed matter. The mopping up lasted some time, and it is only during the X-mas vacations that I can think of writing my private letters.

It was owing to your initiative that I had the opportunity of seeing Knoxville and Oak Ridge and to meet old and new friends there; thank you most heartily for your invitation and for your hospitality. I should be very glad to see you over here in Europe and show you what is worth seeing in our country. The Fifth World Power Conference will be held in Vienna from 17 to 23 June 1956. About 3000 delegates from all countries will be present - perhaps you could ~~XXXXXX~~ arrange it to join the U.S. delegation.

With best wishes for 1956

I remain yours sincerely

Very sincerely yours

Please give my kindest regards to Stan Combs.

In Redlands are still lingering vividly in my memory.

I was very glad to make your acquaintance, and the fine days I'll do my best.

Forthcoming World Power Conference) than I can cope with.
